ACKNOWLEDGEMENTS:

The Ohio Department of Health (ODH), along with the Public Health Combined Conference Planning Committee, assisted in developing the agenda and recruiting presenters for these three days.

The Pew Environment Group provided financial support for the conference.

GOJO Industries, Inc., has provided financial support for the OPHA Celebrate Public Health Awards Event. No continuing education is being provided during this event.

Note – Dress for the conference is business/business casual. Please note that it is often difficult to regulate the temperature in the educational sessions to everyone’s satisfaction. You are advised to consider your own comfort and dress in layers.

Thank you.

TARGET AUDIENCE: This program is planned to meet the needs of public health professionals, including administrators, medical directors and physicians, nurses, sanitarians, health educators, local public health board members, academicians and students.

SESSION OBJECTIVES:

MONDAY, MAY 10, 2010

Plenary Session

“H1N1 Best Practices – What We Learned” – will describe lessons learned from the recent H1N1 season. A panel of local health department staff involved in implementing vaccination programs in their communities will share experiences and recommendations.

Ohio Papers

This session allows the opportunity for public health professionals to present and discuss their research, programs, and other experiences in a round table session. During the session, presenters will deliver a brief presentation to small groups of attendees. The attendees will rotate between the round tables every 20 minutes. Presenters and topics will be announced.

TUESDAY, MAY 11, 2010

Opening Remarks

“Local Health Departments and ODH: Using Combined Energy to Create a Strong Public Health Connection in Ohio” will discuss how, in a period of limited resources, local and state public health professionals are working together to create positive public health outcomes in Ohio”

Keynote Address

“Climate Change and Energy: Public Health Implications” will describe planning efforts to address climate changes through the ten essential public health functions.

Concurrent Sessions

- A. *“Students and Faculty Poster Presentations” will describe current research that Ohio academic program students and faculty have accomplished.*
- B. *“Engaging the Public Health Workforce in Carbon Footprint Mitigation” will discuss the results of a study among public health professionals on carbon footprint reduction.*
- C. *“Blazing a Trail: Franklin County Smoke Free Housing Campaign” will discuss how the success and lessons learned from the Smoke Free restaurant campaign will assist Franklin County in beginning the Smoke Free Housing campaign.*
- D. *“Infection Control in the Correctional Setting” will describe the infection control practices used in the correctional setting. Physicians will be able to list infectious diseases commonly seen in the correctional setting.*
- E. *“Medical Directors’ Emergency Issues” will identify public health emergency response issues that must be considered by local health districts involving their medical directors.*

- F. *“Moving Decision Makers Beyond Healthcare: A Public Health Leadership Project” will describe how the Public Health Leadership Project identified information needs of stakeholders to make informed decisions that impact the root causes of chronic conditions.*
- G. *“Student Oral Presentations” will describe community and research projects that students have completed through Ohio’s academic programs.*
- H. *“Green Energy Alternatives” will discuss affordable energy alternatives in your community.*
- I. *“Walk, Bus, Bike: Routes to a Healthier Society” will identify individual and systemic changes that can occur to create healthier, more active forms of mobility/transportation.*
- J. *“Bed Bugs: The State’s Efforts to Address the Issue” will describe the efforts of the Ohio Bed Bug workgroup and other state entities to address the issue of bed bugs.*
- K. *“MRMSA and Animals: Current Situation and Scenarios” will describe the current understanding of MRSA as a zoonotic pathogen. Will describe the transmission of MRSA between animals and humans.*
- L. *“I Can See Clearly Now: Preparing for Ohio’s Projected Increase in Adult Vision Problems” will identify the four leading causes of adult blindness and will describe how one can help address these causes of blindness.*

General Session

“Ohio’s Experience with the Public Health Accreditation Board ‘Beta-Test’ of Accreditation Standards for State and Local Health Departments” will consist of a panel that will describe how the accreditation standards have been used to prepare for a site visit.

WEDNESDAY, MAY 12, 2010

Concurrent Sessions

- M. *“Implications of Federal Health Reform for Ohio and Public Health” will review major provisions of recent bills, the timeline associated with the reforms, the policy opportunities for Ohio and implications for stakeholders including public health and Ohioans.*
- N. *“Generating Actionable Evidence for Public Health: Practice-Based Research Networks” will identify issues for developing a public health practice-based research network in Ohio.*
- O. *“Chronic Disease in the Health Reform Debate” will describe how the Partnership to Fight Chronic Disease works with other groups to influence the health reform debate.*

- P. *“Market Gardening in an Urban Environment” will describe a market gardening program in an urban neighborhood.*
- Q. *“Antibiotic Use in Industrial Farm Animal Production” will describe safety issues concerning the system of food animal production.*
- R. *“Faith Communities and Energy Issues: Moral and Health Dimensions of Climate Change” will describe moral and health issues related to climate change and energy use.*

Concurrent Sessions

- S. *“Pharmacy Opportunities and Challenges in a Health Department Setting” will discuss pharmacy issues pertinent to health departments.*
- T. *“Take Back Your Time: Escape From Time Poverty” will identify resources that will support a better balance of life.*
- U. *“Countywide Landfill – Lessons Learned” will provide an overview of causes and planned solutions for the chemical fire at the Countywide Landfill, covering history, environmental health impacts and challenges of communication and coordination with federal, state and local community.*
- V. *“Cancer and the Environment” will describe the relationship of Ohio’s current energy trends and the challenges they present to cancer prevention strategies.*
- W. *“Improving the Board of Health Appointment Process” will discuss recommendations to improve the appointment process of local boards of health.*
- X. *“Moving from Oil Dependency to Resiliency” will provide information on the public health concerns related to the peak oil phenomenon, and recommendations for transition initiatives toward building resilient communities.*

Keynote Address

“Energy, Environment and Public Health: Making the Connection” will describe the connections between public health and environmental sustainability.
